

## An Outdoor Lover's Paradise

### An Affordable Safari Destination for Groups and Independent Travellers

#### CAMP LAYOUT

Once a mealie-field, the **Rest Camp** has become a well-established indigenous forest, thanks to a tree-planting operation in 1960's. The extent of the camp, largely concealed by the vegetation, comprises five distinct areas:

- **Central Area** – Reception, Activities Centre, Restaurant and Rest Camp Huts, with our 50-year fire at its heart.
- **Animal Inkhundla** – between Central Area & Beehive Villages, where animals move freely on a large, open grass area, flanked by the Education Centre, offices, shop and the horse paddocks.
- **Beehive Villages** – three adjacent villages, about 200m from the Central Area, are flanked by the Dormitories and Camping Grounds.
- **Swimming Pool & Day Visitor Area** – West of the Central area.
- **Self-catering Cottages** arc out from the Rest Camp, affording each unit privacy and valley views.
