Shelhi Horne of Diets by Design

I am an equine nutritionist specialising in custom feeding plans to optimise horse health and performance. I started studying and working as an equine nutritionist in 2011, completed my MSc Animal Science in 2015 and have worked on a wide range of custom feeding plans for horses from diverse disciplines, fed a wide range of feeds and forages in order to improve their health and performance. The following quote (H.Meyer -1999) sums up what I try to ensure my diet work encompasses - " The only aim must be the horse's welfare. Our challenge is to develop species-specific, health-promoting nutrition to ensure a long well-fed life".
